Western Area Power Administration

AC Intertie Project; Rate Order

AGENCY: Western Area Power Administration, DOE.

ACTION: Notice of Rate Order.

SUMMARY: Notice is given of the confirmation and approval by the Deputy Secretary of the Department of Energy (DOE) of Rate Order No. WAPA-71 and Rate Schedules INT-FT2 and INT-NFT2 placing firm and nonfirm transmission rates into effect on an interim basis. The interim rate, called the provisional rate, will remain in effect on an interim basis until the Federal Energy Regulatory Commission (FERC) confirms, approves, and places it into effect on a final basis or until it is replaced by another rate.

The power repayment studies indicate that the proposed rates for firm and nonfirm transmission service are necessary because of adjustments in operation and maintenance expenses and an anticipated decrease in current marketable capacity on the new 500-kV transmission system.

Three major changes are affecting the rates for the AC Intertie: (1) The

establishment of separate firm transmission rates for the existing 230/345-kV lines and the new 500-kV lines as a result of customer comments and concerns expressed in formal and informal meetings with Western; (2) changing the methodology of calculating interest offsets to be consistent with the other power marketing administrations; and (3) adjustments Western made to budgeted investments for the AC Intertie Project.

DATES: Rate Schedules INT-FT2 and INT-NFT2 will be placed into effect on an interim basis on the first day of the first full billing period beginning on or after February 1, 1996, and will be in effect until FERC confirms, approves, and places the rate schedules in effect on a final basis through September 30, 2000, or until the rate schedule is superseded.

SUPPLEMENTARY INFORMATION: By Amendment No. 3 to Delegation Order No. 0204-108, published November 10, 1993 (58 FR 59716), the Secretary of Energy delegated: (1) The authority to develop long-term power and transmission rates on a nonexclusive basis to the Administrator of Western; (2) the authority to confirm, approve, and place such rates into effect on an interim basis to the Deputy Secretary; and (3) the authority to confirm, approve, and place into effect on a final basis, to remand, or to disapprove such rates to FERC. Existing DOE procedures for public participation in power rate adjustments (10 CFR Part 903) became effective on September 18, 1985 (50 FR 37835). These power rates are established pursuant to section 302(a) of the Department of Energy (DOE) Organization Act, 42 U.S.C. 7152(a), through which the power marketing functions of the Secretary of the Interior and the Bureau of Reclamation (Reclamation) under the Reclamation Act of 1902, 43 U.S.C. 371 *et seq.*, as amended and supplemented by subsequent enactments, particularly
